HOPEFUL ON RECIPROCITY

International Commissioners' Sentiment

OPPOSITION

By Dominion Conservatives-No Advan- said yesterday morning.: tage to Canada, Ross Declares-On the Contrary, He Says, Industry Will Be Injured.

Ottawa, Ont., Nov. 9 .- The reciprocity formulating a schedule of tariff concessions, which it is believed will stimulate course taken by the negotiations, there was an apparent feeling of satisfaction among the commissioners, and a belief that the work of reaching an amicable agreement will not prove difficult. It is understood that Canada made a tentative suggestion of tariff reduction by the United States on the dominion's natural products, at the same time offering concessions on some line of manufactures, such as steel shapes and agricul-tural machinery. These schedules were still under discussion when an adjournment was taken until vesterday.

It is apparent that there is a feeling of annoyance prevalent in Canadian official circles on account of the outspoken and in many cases violent language used by the Conservative party press throughout Canada in denouncing the very idea of reciprocity with the United States, The Laurier government is committed at least to the proposition that it is worth while to try to negotiate a reciprocity treaty, but the Conservative press, which can see nothing good coming from such a source, denounces the attempts to arrive at a better understanding than now

Baldheaded Men

Ignorance of the Hair Causes Much Baldness Among Men.

Early piety doesn't cause baldness, neither does any kind of piety. Some bald-headed men console themselves with the idea that baldness is caused by a superabundance of gray brain matter and would have the world believe that a hald head is a sign of great intellect. Such, however, is not the case. Nine-ty-nine times in one hundred, baldness is caused by dandruff germs which dig down deep into the roots of the hair destroy its vitality and cause it to fall

All this may come gradually and take time, but, as an up-to-date humorist would say, "What's time to a dandruff

If you have dandruff, the little invisible, persistent devils called dandruft germs are at work. Destroy them at once, or sooner or later they will cause your hair to fall out and you will be ompelled to take your place in the haldheaded class.

MAINE THIRD IN CORN PACKING.

New York and Illinois.

Bangor, Nov. 9.—According to a report of the Maine bureau of labor and industrial statistics, this state stands third among the states of the Union in value of corn packeted, being surpassed only by New York and Illinois. An investigation of this industry in 1900, showed 68 corn-canning establishments then in operation, with a total pack of 22,100,000 cans valued at \$1,519,374.45. Returns made this year show that 95 factories were in operation during the

packing season. Ten years ago the farmers received \$1.50 per 100 pounds of corn as cut on hedgehogs so that private owners from the cob. The price was later of forests can have public aid in proraised to 82 and the present year contracts have been made at the rate of 82.25 per 100 pounds. Fully 90 per cent, of the Maine corn pack is put up in the seven countles of Androscoggin, Cumberland, Franklin, Kennebec, Oxford, Penobscot and Somerset, while a few factories are located in Knox, Piscataguis, Waldo and York. No corn canning factories are reported from the counties of Aroustonk, Hancock, Linsoln or Wasnington,
